HIALEAH
Hospital

Hialeah Hospital is 378-bed acute care facility that has been serving the communities of central and north Miami-Dade since 1951. Our staff is made up of experienced and dedicated physicians, specialists and healthcare professionals who all work together to provide the best medical care possible to our neighbors. Our award-winning facility offers a broad range of health care services, including 24-hour emergency care, surgical services, maternity services, surgical weight loss (bariatrics), a sleep disorders program, rehabilitation therapy, wound care, elderly care, and a complement of imaging services.

SPECIALIZED SERVICES

Emergency Services – We have a full-service, acute-care department that offers emergency treatment 24 hours a day/ 7 days a week from Emergency Medicine physicians and trained emergency personnel. We also provide bedside monitoring and obstetrics services for pregnant women who are 32 weeks or more along.

Surgical Services – We offer a full compliment of inpatient and outpatient surgical services, including general surgery and sub-specialties such as bariatrics, colorectal, endoscopy, laparoscopy, orthopedics, peripheral vascular surgery, urology, ophthalmology, neurosurgery, urodynamics, stereotactics, and podiatric total ankle replacement.

Weight Loss Surgery Program – Laparoscopic gastric bypass and lap-band surgery for patients who are 100 or more pounds overweight or have a BMI of 40 or more. We have been ranked the #1 Bariatric Surgery Program in Florida by HealthGrades, and are designated a Certified Center of Excellence by the American Society for Metabolic and Bariatric Surgery. For more information, call 1-800-470-7422.

The Colorectal Institute – Our center uses advanced diagnostic tools and minimally-invasive

techniques to test and treat a full spectrum of colorectal conditions and diseases, including colorectal cancer screenings & treatment, hemorrhoids, chronic constipation, fissures, abscesses, sexually transmitted diseases, pelvic floor dysfunction, motility disorders, inflammatory bowel disease, bowel obstruction, and more.

Maternal Child Center – Comprehensive services for expectant mothers at every stage of pregnancy. We provide free childbirth classes in English and Spanish, and offer attractive, comfortably designed rooms for labor, delivery and recovery. Our facility also includes a Level II Neonatal Intensive Care Unit. We are proud to be ranked among the Top 5% in the nation for maternity services by HealthGrades for the sixth consecutive year.

Medical Imaging – A full spectrum of diagnostic services offered by a staff that includes Radiologists, an Interventionalist, and trained technicians. Services include: mammography (including digital mammography), PACS, bone density, ultrasound, MRI, CT Scan, Nuclear Medicine, and X-ray.

Outpatient Rehabilitation Center - Provides comprehensive services to help patients regain mobility, function and quality of life after injury, illness or disease. Services include: Physical Therapy, Occupational Therapy, Speech/Language Therapy, Hand Therapy, Wound Care, and Multidisciplinary Neurological Treatment.

The Sleep Disorders Program – Specialized evaluation and treatment for common sleep disorders including sleep apnea, snoring, insomnia and narcolepsy. Observation takes place overnight and includes a sleep study that evaluates vital signs, sleep patterns, eye movements, and respiratory activity. Our sleep specialists then develop the best treatment plan for each patient.

ACE Unit – The Acute Care for the Elderly (ACE) Unit implements the latest techniques in geriatric acute care and is available to treat medical conditions ranging from stroke recovery to pain management. The program focuses on decreasing the risk of potential infection, dietary needs, maintaining skin integrity, and preventing functional decline.
